<b>Office Action Summary</b>	Application No. 10/519,419	Applicant(s) TATARSKY, VALERIJ	
	Examiner Charanjit S. Aulakh	Art Unit 1625	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. According to a preliminary amendment filed on July 11, 2006, the applicants have canceled claims 1-10 and furthermore, have added new claims 17 and 18.
2. Claims 11-18 are now pending in the application.

### ***Election/Restrictions***

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) In part 11-18, drawn to Complex of general formula of claim 17 where T represents Pyrimidine and an antitumor composition containing these complexes.

Group II, claim(s) In part 11-18, drawn to Complex of general formula of claim 17 where T represents Phenylalanine and an antitumor composition containing these complexes.

Group III, claim(s) In part 11-18, drawn to Complex of general formula of claim 17 where T represents Pyridine or piperidine and an antitumor composition containing these complexes.

Group IV, claim(s) In part 11-18, drawn to Complex of general formula of claim 17 where T represents 1,3,5-triazine and an antitumor composition containing these complexes.

Group V, claim(s) In part 11-18, drawn to Complex of general formula of claim 17 where T represents 1, 3, 2-oxazephosphorine and an antitumor composition containing these complexes.

Group VI, claim(s) In part 11-18, drawn to Complex of general formula of claim 17 where T represents compounds other than defined above for groups I through V and an antitumor composition containing these complexes.

4. The inventions listed as Groups I through VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

There is no common core Which in the Markush Practice, is a significant structural element shared by all of the alternatives; see PCT Administrative Instructions Annex B Part I (f) (i) (B) (1). In the instant case, variable T is critical for the common core and antitumor activity of instant complexes.

5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention. It is of note that group VI is subject to further restriction based on the value of variable T. In case, applicants elect group VI, they must present core structure of variable T.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charanjit S. Aulakh whose telephone number is
